Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Wednesday 29 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Remaining changeable but very mild over the coming days.

This Evening and Tonight:
This evening will be dry with a few clear spells around at first. Cloud will build towards midnight with further rain arriving from the southwest. The rain will become heavy and persistent at times, but it will be mild. Minimum temperature 7 deg C (45 deg F).

Thursday:
A rather cloudy and breezy day, with outbreaks of rain, which will turn increasingly persistent throughout the day. Feeling very mild once again. Maximum temperature 14 deg C (57 deg F).

Outlook for Friday to Sunday:
Drier in the south on New Year's Eve, but rain lingering in the north. Brighter with some showers on New Year's Day, before rain returns on Sunday. Staying mild.
